## FCSL

After the conclusion of the race, if for whatever reason, the Swimmingly times are way off (outside of .3) look at the backup stopwatch time. Does back up time come within .3 of either Swimmingly time? If backup time confirms one or the other that one Swimmingly time is correct and simply void the bad time. If back-up time does not confirm either Swimmingly time, use the backup stopwatch time and note it on this sheet. Any questions - consult FCSL Ref for advice and order of finish.
